Paper I

Q. CHOOSE THE CORRECT ANSWER :

(Marks: /25)

- 1) A computer component that checks whether a number is greater or lesser than another number is the
A. arithmetic logic unit. C. control unit.
B. memory unit. D. output unit.
- 2) As compared to hard disk drives, the universal serial bus (USB) flash drives
A. have moving parts inside them. C. rely on magnetic properties.
B. have high power consumption. D. are lighter in weight.
- 3) Linux is an example of a/an
A. device driver. B. utility program. C. operating system. D. language processor.
- 4) The mandatory component required in a star topology without which the network won't work is.
A. Nodes. B. Hub/Switch C. Router. D. Terminators.
- 5) In which generation of computer microprocessor was introduced?
A. 1st Generation of Computers C. 2nd Generation of Computers
B. 3rd Generation of Computers D. 4th Generation of Computers
- 6) Which of the following computer supports thousands of users at the same time?
A. Microcomputer C. Minicomputer
B. Mainframe computer D. Laptop computer
- 7) Who is responsible for protecting information and information systems from unauthorized people in an organization?
A. System Analyst C. Information Security Analyst
B. Network Administrator D. Hardware Engineer
- 8) Which of the following is the fastest memory?
A. USB flash drive C. RAM
B. ROM D. Cache
- 9) Which of the following devices is MOST suitable to read shaded circles of an MCQ sheet?
A. Magnetic Ink Character Reader C. Optical Mark Reader
B. Optical Character Reader D. Barcode Reader
- 10) What type of software a device driver is?
A. Application software C. Business software
B. System software D. Productivity software
- 11) Which of the following is volatile memory?
A. RAM C. ROM
B. USB flash drive D. Hard disk
- 12) Which software is distributed free of cost for a limited period as a trial version?
A. Open source software C. Shareware
B. Freeware D. Productivity software
- 13) When memory has the least storage capacity?
A. Cache Memory C. L1 Cache Memory
B. L3 Cache Memory D. L2 Cache Memory
- 14) Which of the following is open source operating system?
A. UNIX C. Linux
B. DOS D. Novell's Netware
- 15) There are _____ types of low level languages:
A: 2 B: 3 C: 4 D: 5

16. All computers and devices connected within a computer network are called_____
 - A) Shareable devices
 - B) Nodes
 - C) Medium
 - D) Protocol
- 17) Which of the following is not a high level language?
 - A: Fortran
 - B: Basic
 - C: C and C++
 - D: Assembly language
- 18) UNIX is a/an:
 - A: Language
 - B: Assembler
 - C: Operating System
 - D: None of these
- 19) Protocol in network is defined as
 - A: The data which is being sent
 - B: Set of rules that governs data
 - C: Encryption
 - D: None of the above
- 20) Computer which are also called personal computers:
 - A: super computer
 - B: Mini computers
 - C: Micro-computers
 - D: Digital computer
- 21) Which of the following is a low-level language?
 - A: COBOL
 - B: BASIC
 - C: Assembly Language
 - D: PASCAL
- 22) Which network topology will be suitable for a computer lab in school?
 - A: Star
 - B: hybrid
 - C: Bus
 - D: Tree
- 23) Neha tries to connect an external mouse to her laptop, as she connects the mouse following message appears on the screen:
 “Unable to connect, please update the_____”
 What she will update on her laptop to make the mouse operational?
 - A: USB Port
 - B: Device Driver
 - C: Operating system
 - D: Utility software
- 24) Rizwan owns a newspaper publishing company, what application software will he use to edit newspapers?
 - A: Desktop publishing software
 - B: Spreadsheet software
 - C: Word-processor
 - D: None of the above
- 25) What is the example of an open-source operating system?
 - A) Linux
 - B) Windows
 - C) Android
 - D) A and C Both

Paper II

Questions

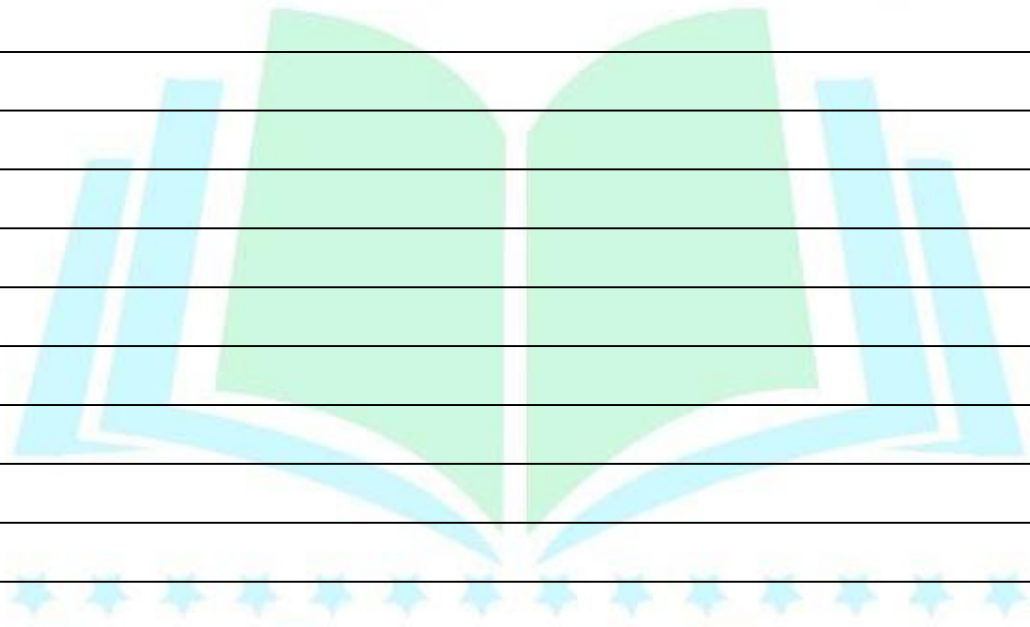

(Marks: /25)

- Q-1) Elaborate how Mainframe computers are different from Super computers? /4
- Q-2) Draw diagrams of Simplex, Half-duplex and Full-duplex modes of data transmission with their brief explanation. /4
- Q-3) Briefly explain “Analog computers have continuous manner whereas digital computer are discrete?” /2
- Q-4) An Entrepreneur wants to open up his own institute, suggest any 3 automatic and 3 manual data capturing devices with the uses of each with respect to his new venture. /2
- Q-5) Differentiate between LAN, WAN and MAN. /3

ERQ

- Q-6) Explain diagrammatically the Components of a computer system? /5
- Q-7) Differentiate between Star and Mesh topology with the help of a diagram. /5
 Write atleast 3 differences of each.
